I am alive. I am alive. I am alive. I am alive. I am alive.

My cells are growing younger. They are dancing stronger.
There is no place for loneliness in them. My cells are growing younger.
They are dancing stonger. They are filled with joy and love.

My joy is growing up with every touch. I am alive as never.
I love it so much. There is no place for loneliness in me.
I`m sure, I`m made for eternity.
